[Greater St. Louis area Crime Alert](#)

St. Louis Scoop | 9/3/2013

Cities in the Greater St. Louis area are receiving reports of thefts by persons entering unattended and unlocked vehicles at gas stations to steal items from the interior of the car. These thefts have been reported at gas stations {near each of our Monsanto campuses}.

Criminals are also committing thefts from vehicles while the drivers are pumping gas. It takes less than 10 seconds for them to reach in your vehicle and steal your property while you stand six feet away.

Please remember to keep all valuables out of sight and lock your car when you exit.
