[Jeff Speakman - The Perfect Weapon \(1991\)](#)

The complete movie! Not sure how long it will stay online.

Jeff Speakman has some kenpo moves that should look very familiar. Just sayin'.

You need to mouse over the pop-ups & carefully click the "x" on each to get rid of them both.

I recommend a version of [this method](#) to block most advertisements & malware, since it works on Linux, Windows & Macs.

You can get a "hosts file" that stops almost everything from [[here](#)] but sometimes it blocks stuff you did not know you wanted.

If you edit your "hosts file" the close your web browser and re-open it to take effect. You might notice things feel a bit faster too.
