

SKINNERS: Revolutionary Ultraportable Footwear

Last Modified: 14th December, 2016, 4:44 PM

I'm not one to make money by putting ads on this site, so understand this is a "Public Service Announcement".

[SKINNERS: Revolutionary Ultraportable Footwear](#) should be available to the public within the next few months.

These are shoes that fold, wash, carry and look like socks!

I got in early as a [Kickstarter / Indiegogo](#) backer, so mine may arrive around February 2017.

I expect these to be light-years ahead of training in [wrestling shoes](#) or [Feiyues!](#)
