

Tom McKenna, Kajukenbo PI

There are 2 books about a Private Investigator –who happens to be a Kajukenbo black belt– by author [“John Truman Wolfe”](#)

I am only 1/2 way through the first book “[Mind Games](#)” which is somewhat interesting but the plot seems to have some weird mind control stuff going on. I was hoping it would get better and the mind control stuff would be explained rationally. However, I never got around to finishing the book. Something was ...odd about the story that I could not put my finger on it until tonight.

2. [Kendra Wiseman](#) is one of the founders of [Exscientologykids.com](#), a website that offers “non-judgmental support for those who are still in Scientology, discussion and debate for those who’ve already left, and a plethora of easy-to-understand references for the curious.” She is the daughter of [Bruce Wiseman](#), president of the [Citizens Commission on Human Rights](#), a [Scientology](#)-sponsored organization opposed to the practice of psychiatry. — Wikipedia

[The Gift \(Tom McKenna book #2\)](#)

I am now in no hurry to finish the first book and I have no plans to buy the second.
